

2.1 OpenStreetMap

OpenStreetMap is a collaborative project to create a free editable world map and is at the core of HOT's mapping activities. You are free to use it for any purpose as long as you credit OSM and its contributors.

Resources

- OSM Wiki
 - LearnOSM
 - TeachOSM
-

Training Materials

- Introduction to OSM pdf | ppt
 - We encourage OSM Communities to adapt this presentation to reflect their own location. (i.e. replacing screenshots on slides 2, 4, 11, & 13 with screenshots relevant to their own location.)
- Signing up for OSM Accounts
