## 4.2 Using ODK Collect

This guide provides **surveyors, mappers and field supervisors** with the skills to:

- Complete the initial setup for ODK Collect
- Use ODK Collect for data collection surveys

### Overview

**Open Data Kit Collect (ODK Collect)** is a data collection application on Android. ODK Collect can replace form survey from paper to digital. Therefore, this application will help the mapping and data collection activities in the field which also allow to save the location and photo information at once.

### Resources and Training Materials

This section features a selection of resources targeted at project managers, trainers, or even self-learners on the topic(s) outlined above.

*The following section is designed to serve as a self-paced guides for project managers, supervisors, or others in setting up the application.*

### Initial Setup for ODK Collect

#### 1. Set the URL Server *If you are not using a server, skip to step 2. Set the Image Size*

To take the form survey from the server for the first time, the user needs to set the URL server. There are the steps:

- Open ODK Collect and press the three point button in the upper right corner, select **General Settings → Server**

Option to fill the URL address menu in ODK Collect

- Type the URL address server in **URL → OK**

Step to fill the URL address in ODK Collect

#### 2. Set the Image Size

In addition to the location point, you can also take a picture as additional information. If you will be collecting images as part of your data collection surveys, you can set the picture resolution as desired. But, the picture resolution will also affect the amount of your phone memory or file which will be uploaded to the server later. It is recommended that you choose the smallest resolution of the image during initial setup. You can follow this step:

- Open ODK Collect and press the three point button in the upper right corner, select **General Settings → Form Management.**

Option menu to set image resolution

- Select **Image Size** then select the **Very Small (640px)** option.

- Select the form that you want to edit by press the form and you can edit the form.

Edit save form page to select the form that you want to edit

- Then, press floppy disk icon

Edit save form page to select the form that you want to edit

### Transferring Completed Forms

After completing data collection, all forms will need to be transferred from the data collection device to a central storage location for data cleaning and processing.

#### 1. Manual Download

If you do not have access to a server, forms can be manually downloaded from devices. To do so, plug the device into a computer.

- Go File Manager or File Explorer on your smartphone and open your internal storage. Then open ODK folder. This folder contains all the survey result file which stored on ODK Collect application. Then select the 'instances' folder which contains the files from the survey results.

Instances folder in ODK folder and the survey result in instances folder

- Copy the 'instances' folder to your computer. Rename the folder by date and surveyor.

#### 2. Upload Survey Forms to Server

After you fill and save the form, the next step is upload form survey to server. You can follow this step to upload form to server:

- To upload the form return to the server, you can choose **Send Finalized Form**.

Send Finalized Form to upload a survey form to the server

- Form survey is saved on that page and ready to send. You can choose **Select All** to select all forms first.
- Make sure you are connected on the internet. Then press **Send Selected** and wait until the process\_upload\_ the form is complete.

Survey forms that are ready to send in the Send Finalized Form

- All forms that have been successfully uploaded will be stored in **View Sent Form** menu and the icon turn into green.

View Sent Form and survey form that have been successfully uploaded to the server

- After upload the form, you can delete the form in **Delete Saved Form** menu.

Delete Saved Form menu for delete the form

- You can delete the the filled form in **Saved Forms** option and delete the blank form in **Blank Forms** option. You should choose the form that you want to delete or **Select All** for delete all form.
